

ASTUTE VISITOR MANAGEMENT..

[smart integrated global site management]

[What can Astute Visitor Management do?]

- » Register and issue badges for visitors, staff and contractors in seconds
- » Developed in conjunction with Astute Technology and Secure Access Technology, the sole UK agent for Hirsch Electronics Corporation
- » Create and design badges
- » Eliminate paper forms and storage
- » Scanning of identification
- » Fast and secure barcode scanning for visit termination
- » Pre-registration minimizing visitor wait time
- » Time tracking of staff
- » Multiple site support, easily switch between sites
- » Intranet booking of meetings
- » Real-time muster

[Secure your buildings]

- » Create a front line defence for buildings and staff
- » Increase safety & security by screening visitors against historical directories
- » Capture and store photographs and signatures
- » Enhanced real-time reporting and charting capabilities
- » AACS integration including event and alarm notification and management
- » Ability to ban individuals from site
- » Voice Over IP intercom support
- » Biometric fingerprinting

[Administrate and Manage]

- » Built-in training videos to assist learning
- » Create unlimited custom user defined fields
- » Retain visitor records as long as desired
- » Seamless Integration with access control systems
- » Client Server platform, deployable across LAN or WAN networks.
- » Import & export data using the AVM import export wizard
- » Setup system users and customize features they have permission to access

[Person Management]

- Add visitors, staff and contractors and search these with the directory facility
- Temporary and duplicate passes rapidly issued with full reporting audit trail
